

For having old vintage vehicles numbers reflect in VAHAN 4.0:-

- Those number records which are available online but blacklist by the concerned registering authorities then concerned registering authority have to request to the STC office for unblacklisting provision of these number and after unblocking process of RMA is to be done by the O/o concerned registering authority for assigning new registration marks from running series.

For having old vintage vehicles numbers do not reflect in VAHAN 4.0:-

- Those vehicle numbers of which record is not available online then concerned registering authority have to backlog the record of vehicle online by requesting the STC office for allowing specific registration mark for backlog then after digitize the record on vahan 4.0 then the same RMA process for assigning new registration marks shall be done by concerned registering authority.
